### After School Programs

**LOCATION:** Rocklin Elementary & Rocklin Academy

#### Mysteries & Myths (K-3rd)

Discover the world around you by asking scientific questions about why things happen. In our Mysteries and Myths program, students will investigate natural phenomena and other mysteries of the scientific world.

Each week we will study different natural phenomena and discover how those phenomena occur scientifically. Students will also debunk myths and learn to develop and ask meaningful scientific questions about the world around them.

09/13 - 10/18 (6 Classes)

Day: Wednesdays

Time: 3:15 - 4:15 pm

Location: Multipurpose Room

Price: \$98

#### Mysteries & Myths (4th-6th)

In our Mysteries and Myths 4th - 6th grade program, older students will investigate natural phenomena and other mysteries of the scientific world but dive deeper into the scientific 'whys and hows!'. Based on Next Gen Science Standards, each week we will study different natural phenomena and discover how those phenomena occur scientifically. Students will be challenged to debunk myths and learn to develop and ask meaningful scientific questions about the world around them.

09/13 - 10/18 (6 Classes)

Day: Wednesdays

Time: 3:15 - 4:15 pm

Location: Multipurpose Room

Price: \$98

### Saturday Workshop

**LOCATION:** Rocklin Event Center - Room 107

#### Energy Engineers

Students explore modes of transport and how we use the energy of our world to make them go. They will also look to the future, and design and build new ways to get around town that use renewable energy.

10/14 (1 Session)

Grades: K - 2nd

Day: Saturday

Time: 9:00 am – 12:00 pm

Price: \$42

10/21 (1 Session)

Grades: 3rd - 5th

Day: Saturday

Time: 9:00 am – 12:00 pm

Price: \$42

### Winter Break Camp

**LOCATION :** Sierra College - Rocklin Campus

#### Wild Things Animation

Become a Wildlife Movie Animator!

Campers will spend part of their week studying how North American creatures adaptations help them survive in their environment with fun-filled hands on projects. Our creative campers will then brainstorm and storyboard their feature while learning how to create an iStopMotion movie with sound effects, music, special effects, titles, and credits. Wrapping up the week on Friday, families and friends are invited to the Wild Things Animation Screening party. Come out and meet the next generation of Nat Geo movie makers!

1/2 - 1/5, 2018 (4 Classes)

Grades: K - 4th

Day: Tuesday - Friday

Time: 9:00 am – 3:00 pm

Price: \$259

Extended hours available: 8:00 - 9:00am & 3:00 - 6:00pm
